

## The application of a European Foundational Body of Knowledge for the ICT Profession

- The big picture
- The educational viewpoint
- How to add value
- Simple and logical

Topic to  
generate  
discussion

# How will the Bok work in practice ?

- Many applications but most likely from an education perspective
- Design or redesign
- e-CF knowledge
- EU Profile knowledge
- Not familiar with e-CF or EU profiles

# Typical Education EU ICT BoK Use

## New or renovated curriculum

- Long or short

## Seek content

- relevant reliable source
- meets a regulated standard

## Access from familiar viewpoint

- e-CF
- EU profiles
- or traditional domains

## Review content

- Look into structure of materials

## Extract relevant content

- Contextualise

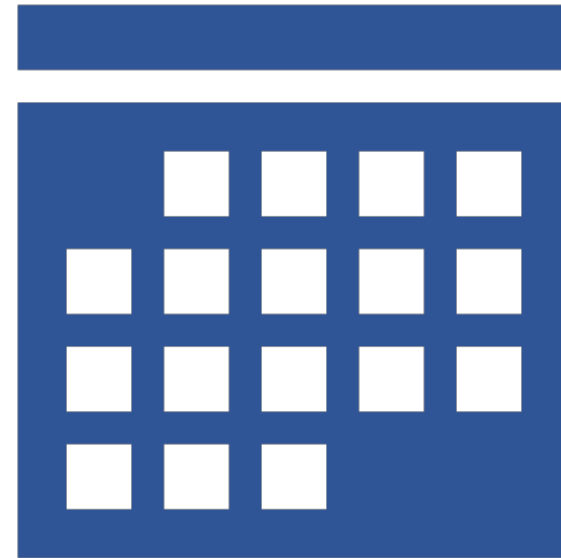

## Investigate related content

- To support program build

Investigation requires easy connections between structures

Conclusion is to  
offer  
two –way path

EU ICT Body of Knowledge

**Routing  
table**

E-CF and ICT profiles

Many thanks
